ABOUT ME

I am a passionate and self-driven software developer with a strong foundation in web technologies, problem-solving, and user-focused design. With a background in sales and digital marketing, I bring a unique blend of technical expertise and communication skills to every project I undertake.
I have hands-on experience in modern front-end and back-end development, including technologies such as React, Bootstrap, Flask, and RESTful APIs. I also actively work on freelance and personal projects to sharpen my skills and stay up to date with the latest industry practices.
I am currently seeking opportunities where I can contribute as a junior developer, collaborate on meaningful projects, and grow within a dynamic development team. I am particularly motivated by challenges that involve innovation, clean code, and impactful user experiences.
If you're looking for a dedicated, fast-learning developer with a multidisciplinary background and a strong commitment to growth, I'd be excited to connect.

Advertising sales manager

[06/06/2021 – 12/06/2021]

Was co-head of the marketing team of a newly created token named "Onion Coin". Worked for a week and generated around $4000 worth of investment for the dev team before they rug-pulled the project and erased all the traces leading back to them. Was responsible for gathering an online influencer team and working with the limited marketing budget the dev team provided. After the main community channel (Telegram) was deleted, had to pay some of my influencers with allocation.

🏢 *Hakan Samancı* – Ankara, Türkiye
